Experience

SmartX, Product Designer

2020 Aug – 2021 Aug · 1 yr

- Designed Product Tour for SMTX OS and CloudTower from concept ideation to implementation.
- Designed label feature for CloudTower, the new shiny management tool for clusters distributed in multiple data centers.
- Being the major designer for the website, I worked with marketing colleagues and designed the pages for CloudTower, community, solutions and customer stories.
- Built a design system for technical architecture diagrams used in marketing contents.

QingCloud, Product Designer

2016 Jul – 2018 Jun · 2 yrs

- Designed AppCenter from ideation to launch, and kept on iterating and followed with the maintenance for 2 years.
- Designed project management for the Web Console. Redesigned the new visual style and icon system of the new interface.
- Worked with design agency to help them understand a series of demands for qingcloud.com and also designed parts of the website which fit into the new visual style.
- Helped on establishing the new design system across products of the company, and designed the essential components for the system.
