Experience

SmartX, Product Designer

2020 Aug - 2021 Aug • 1 yr

- Designed Online Experience for SMTX OS and CloudTower from concept stage to implementation.
- Designed label feature for CloudTower, the new shiny management tool for clusters distributed in multiple data centers.
- Being the major designer for website, I worked with marketing colleagues and designed the pages for CloudTower, community, solutions and customer stories.
- Build a design system for technical architecture diagrams used in marketing contents.

QingCloud, Product Designer

2016 Jul - 2018 Jul • 2 yrs

- Designed AppCenter from ideation to launch, and kept on iterating and followed with the maintenance for 2 years.
- Designed project management for the Web Console. Redesigned the new visual style and icon system of the new interface.
- Worked with design agency to help them understand a series of demands from clients for Qingcloud.com and also designed part of the website which fit into the new visual style.
- Helped on establishing the new design system across products of the company, and designed essential components for the system.
